Lucina Egg Donor Affiliate Program

What is it?

This is a program where you can spread awareness about egg donation and at the same time give opportunities to those that qualify for the egg donation banking program.

You as an affiliate will earn \$800 for every successful applicant who signed up using your link.

The first milestone payment of \$25 will be awarded as soon as the candidate completes the application and is accepted into the program. The second milestone payment of \$775, will be awarded after the retrieval.

Our program costs nothing to participate in and there is no limit to the amount of money you can earn.

Your candidates will earn between \$7,000 - \$10,000, as first-time Egg Donors.

Why Become an Affiliate?

Earn commission while helping others achieve their dreams of starting a family. All you have to do is spread awareness about Egg Donation, and have them apply. We will take it from there. Don't worry! We will answer all of your candidates' questions.

There is no pressure on you or no targets to meet, caps or sales quotas.

With limitless earning potential, you can use your skills as a content creator to entice countless women to donate. You can broaden your contacts since we accept international donors.

Aside from becoming an affiliate, you can also apply to become a donor.

How does our Affiliate Marketing Program work?

Sign Up for the Program

We have an easy-to-use app that allows you to share on social or send links by email and text.

Refer your Candidates

Referring has never been easier! All your referrals are tracked seamlessly, and you can view everything within the app. You don't need to be an expert on egg donation, we are standing by on live chat and can answer all of their questions.

Where to Register

Just scan this QR code or sign up through the link

<https://portal.helpcreatefamilies.com/register/6>

We generate a unique link especially for you.

This ensures any candidate will be tracked under you and you will also see their progress on the web app.

Here is a guide in using the web app:
